

MEMORANDUM

March 8, 1964

TO: Messrs. DeLoach, Malin, Craig

FROM: Harold F. Schmitt

Mr. Robert has made an excellent observation which I am bringing to your attention. The eye witnesses to the Tippet slaying have claimed that Oswald leaned against the door of Tippet's car and spoke through the open window. Yet the photos of Tippet's car at the scene of the murder seem to show the window closed. Only the small vent window is open (See Service Control No. 447, Conn. Doc. No. 87). Do any of you have information as to whether someone closed this window prior to the taking of photographs?
